

PROJECT 1 OBSERVE COLLECT VISUALIZE

ASSIGNED WEEK 2
DUE WEEK 5

Project Description

Collect data on any aspect of your daily experience for 10 consecutive days.

Explore your data, and present your insights visually.

You may use any methods you like to collect, explore and visualize, from spreadsheets to watercolor.

Project Milestones:

Week 3 In class discussion on progress.

We will be getting into small groups and talking about the projects at the end of the class in Week 3. Please be prepared on what you will be collecting and general ideas on how you would like to explore and present your data.

Week 4 In progress Document

Please submit a 1 page document on course-works with the following content:

1. What data you are collecting or have collected
2. Questions you are trying to answer with your data
3. Tools you plan to use
4. How you plan on presenting the data
5. Any inprogress sketches you generated during the class discussion

Week 5 Final Output Due

1. Make a project page, pdf, or any document that summarizes your data, process, and findings.
2. Link your new page to your homepage, upload
3. Submit your URL
